

CAMP FOWLER

ADVENTURES IN STEM CAMP

CAMP SCHOLARSHIPS AVAILABLE!

Learn all about Science, Technology, Engineering, & Mathematics at STEM Camp

Come join us for...

Boat races

Stay cool this summer as you explore buoyancy! Ask questions, experiment, and learn all about forces with educators from Da Vinci Science Center. You'll get a chance to build models, test your designs, and race your friends in Fleming Pool.

Ice Cream Making

Experience one of the COOLEST science shows ever with one of the coldest chemicals in the known universe. The best part about this – fresh, hand-made ICE CREAM, of course! Work as a team to select a winning mix of ingredients to freeze using Liquid Nitrogen and battle for the title of Cool Flavor Creator!

Lantern release

Enjoy a fun filled evening with friends and the opportunity to observe some of the spectacular displays that can be created and explained using science.

Join us for an unforgettable overnight camp experience where you will meet new friends, go swimming, hiking, make campfire s'mores and have fun with STEM. The STEM Camp is a 5-day overnight camp experience brought to Camp Fowler in Summer 2018 through a partnership with the Da Vinci Science Center.

August 2018
5851 Horseshoe Road
Orefield, PA 18069
